■■■■ Indala → T5577 Clone Quick Sheet

(Iceman Firmware Field Guide)

1) Detect & Read the Original
  lf search
  lf indala reader
  → Note Raw, Facility Code (FC), Card Number (CN), Printed/Heden ID

2) Prepare Blank T5577
  lf t55xx wipe

3) Clone Methods (try in order):
  A) Raw:
    lf indala clone -r <rawhex>
    Example: lf indala clone -r a0000000e3f00d51

  B) Facility Code + Card Number:
    lf indala clone --fc <facility> --cn <cardnum>
    Example: lf indala clone --fc 134 --cn 47173

  C) Printed / Heden ID:
    lf indala clone --heden <printedID>
    Example: lf indala clone --heden 1086

4) Verify the Clone
  lf indala reader
  lf search
  → Should show as Indala with cloned ID

5) Test on Target Reader
  If it fails, wipe and try the next method.
  Tip: If you have extra blanks, keep one tag per method (Raw, FC/CN, Heden).
